

Refill Hunstanton

Refill is part of a national, practical tap water campaign that aims to make refilling your water bottle as easy, convenient and cheap as possible by introducing refill points. Refill Hunstanton was set up in 2017 by the Town Council to help keep our beaches clean and help protect our marine life.

How does it work?

Friendly cafes, shops, hotels and businesses are welcoming you in to refill your water bottle – for free! Look for the blue stickers in their windows – alerting passers-by to the fact they're welcome to come on in and fill up their bottle, or better still [Download the free Refill rewards app](#) to see where you can Refill on the go!

Why carry a bottle with you?

Single-use plastic bottles are expensive to produce, use up valuable natural resources to make and transport and create mountains and mountains of waste once we've gulped down the contents. And recycling's not the answer either; here in the UK an estimated 800 plastic bottles a MINUTE are either ending up in landfill or as litter, which will too often make its way into our waterways and out to sea.
